### Objective

Applying for a position of a QA Engineer (Junior)

### Summary

I have completed faculty of Mathematics and Informatics. Confidently use a PS. My experience as a teacher of mathematics and informatics helps to find errors and their causes. I have completed the course of "Software Testing" at the education center of HTP. This course learned me to testing web-oriented and mobile applications, creation and reviewing documentation, reported bugs and work with the tools the QA engineer needs. I seek to develop my skills.
